

Enabling a paperless future

# ScripTouch<sup>®</sup> Slimline 1x5

ST1475 ProScript  
ST1476 EasyScript

The ScripTouch ST1475/ST1476 brings a wealth of features to the market in a rugged design that is perfectly suited for high transaction volumes and use in serving the public.

## Features

- 1 Active Battery-Free Pen
- 2 Vertical Pen Mount
- 3 Durable Casing
- 4 Slim: Less than 1" tall
- 5 USB Interface
- 6 Wide Palm Rest
- 7 Big Non-Slip Rubber Feet
- 8 Snap-in Pen Tray

**Rated for More than  
1 Million Signatures!**

**Rugged Reliability | Industry Best Service | Software Excellence**

**Bonus! Sign PDFs or Word and Excel documents for FREE with ScripTouch Sign and Save.**

Customers can be confident that Scriptel signature pads have successfully passed a series of tests established by Citrix, and can be trusted to work effectively with Citrix XenApp and XenDesktop in order to deliver high-quality handwritten signatures to electronic documents, avoid error-prone and expensive print-sign-scan interactions with customers and vendors, and get that much closer to having a completely paperless operation.

## Models ST1475 and ST1476 Specifications

<b>Product Type</b>	Electronic signature pad, slim profile without integrated display
<b>Active Signature Area</b>	4.25" x 1.13" (108 x 28.7 mm)
<b>Signature Display</b>	None, signature rendered on host computer
<b>Pen Type</b>	Active battery-less tethered pen
<b>Sensing Technology</b>	Scriptel StaticCap <sup>®</sup> capacitive sensing
<b>Min. Sig. Resolution</b>	500ppi
<b>Min. Sig. Sample Rate</b>	120pps
<b>Product Dimensions</b>	6" x 5.375" x 0.95" (152.4 x 136.5 x 24.1mm)
<b>Data Interface</b>	USB 2.0 (standard A-type connector)
<b>Power Supply</b>	USB bus-powered, no separate external power supply needed
<b>Thin Client / RDP</b>	<b>Citrix Ready</b> and <b>ScriptTouch Remote</b> (USB virtualization tool) available
<b>Operating Systems</b>	Support available for Windows, Mac OS, Linux
<b>Warranty</b>	2 Year
<b>Product Webpage</b>	<a href="http://scriptel.com/products/slimline-1x5-signature-pad">scriptel.com/products/slimline-1x5-signature-pad</a>
<b>Model Number and Interfaces</b>	ST1475 ProScript device interface, ST1476 EasyScript device interface

### Our Partners Include:

# Two Device Interfaces, One Network Platform

Citrix Ready and Terminal Services supported

<b>ProScript Device Interface</b>	ScripTouch ProScript signature pads use a generic HID interface that enables two-way communication with the device. Several software libraries are available for development under the ProScript API.
<b>EasyScript Device Interface</b>	ScripTouch EasyScript signature pads use keyboard emulation to transmit captured signature data. This enables signature capture in any OS, with any browser, without client PC installs and administrative headaches that come with the use of Java applets or ActiveX controls.
<b>OmniScript Network Platform</b>	The Scriptel OmniScript universal signature integration platform enables remote management of a ScripTouch signature pad over a network and provides a higher level API (requires devices with ProScript interface).

All Scriptel signature pads are verified Citrix Ready. In Citrix XenApp and XenDesktop and in other RDP-based virtualization architectures, Scriptel's optional ScripTouch Remote software enables trouble-free administration and operation of signature pads attached to the clients.

<b>Important Features and Software Support</b>	<b>ProScript</b>	<b>EasyScript</b>
Windows, Mac OS, Linux	✓	✓
No Client Install		✓
Network Enabled Universal Signature Platform - OmniScript	✓	
Virtualization and Thin Client Support (including Citrix Ready)	✓	✓
Word, Excel, Adobe, Open Office, Libre Office Plugins	✓	✓
.NET, Cross-Platform C, Java, JavaScript, PHP, ASP.NET	✓	✓
Sign and Save Application, including CLI for Custom Automation	✓	✓
TWAIN Data Source	✓	✓
OPOS Service Object	✓

## About Us

Scriptel Corporation was founded in 1982 and is based in Columbus, Ohio. The company quickly became the industry leader in digitizer components and electronic signature capture. In the late 80's, Scriptel launched the PenWriter, the first computer peripheral that provided high quality pen input on a device with its own LCD display. For the first time, this allowed users to see and use their own handwriting on their computers.

Today, Scriptel Corporation is the leader in capacitive pen digitizing technology, a very durable and cost-effective way to electronically simulate pen and paper. The company holds several patents and has deployed its technology in over three million solutions used around the world, mostly in the demanding retail point-of-sale environment. Virtually everyone that has signed on a payment terminal for a credit card purchase sometime in the past 15 years has used a Scriptel pen at some point in time.

Beginning in 2010, Scriptel entered the digital workflow market with the ScripTouch ST1500, a dedicated electronic signature pad that provides high reliability with three year warranty, and has since launched a full line of ScripTouch signature pads that meet important market needs, backing these up with excellent service and software integration support.

In the summer of 2015, Scriptel achieved two important milestones. First, it launched its second generation EasyScript interface that adds signature data streaming and higher resolution for a better user experience to its highly successful "no client install" API for browser-based applications. Second, it achieved Citrix Ready status for all signature pads and launched ScripTouch Remote, optional software for trouble-free administration and operation of signature pads on Citrix XenApp, XenDesktop and other RDP-based virtualization architectures.
